

THE STERLING AVIATION CHARTER ADVANTAGE

save time

Avoid remote parking, shuttle buses, checked baggage and invasive, time-consuming security checks

5,000 airports

are accessible by our fleet versus less than 500 airports by commercial airlines

privacy

conduct secure meetings on-board

comfort

Our Concierge fulfills special requests for on-board beverages, catering and entertainment

convenience

fly on your schedule, not the airlines

efficiency

Multiple destinations, remote locations in a single day

Sterling Aviation delivers personalized attention, safety, efficiency, care and aviation expertise with pricing better than ANY of the national pre-paid charter card programs.

Sterling has two contract charter programs to meet the needs of the discerning traveler.

Sterling Club

This program offers special rates for one way flights or round trips for all aircraft in our charter fleet. A price schedule is established and the charter client obtains access to these rates by making a \$250,000 annual commitment, paid in quarterly installments of \$62,500 each. In addition to lower rates, the customer is billed actual flight time as opposed to projected times. This typically amounts to a significant discount on longer trips. After a trip is completed, all trip charges are taken from the account along with any other expenses (i.e. catering, ground transportation, landing fees, etc.) and a receipt is issued to our client. The account status can be checked at any time by logging into a secure section of our website.

Block Charter

This program also permits access to our entire fleet, but a primary class of aircraft is selected for travel, i.e. small, mid or large cabin aircraft. Block Charter offers special rates for one-way flights or round trips for all aircraft in our charter fleet. A price schedule is set for the client's primary class of aircraft and access to these rates is obtained by paying three installments (at 90 day intervals) of the estimated total value of the annual hourly commitment of 25, 50 or 100 charter flight hours declared. Upon trip completion, all trip charges and other expenses are deducted from the account and a receipt is issued to our client. Again, account status can be checked at any time by logging into a secure section of our website.

All programs can be custom tailored to meet your particular needs, including a large amount of one-way flying. It's all a part of *The Sterling Experience*.

Sterling is a full-service, privately held corporate aviation management company located at Mitchell International Airport (MKE) in Milwaukee. Our services include aircraft management, private air charter, aircraft maintenance (at our FAA certified Part 145 Repair Station), fuel sales for our managed clients, aircraft acquisition and sales support.

Sterling is one of only 28 companies listed on the prestigious Air Charter Safety Foundation's Industry Audit Standard, a rigorous safety audit. We likewise are Gold rated by ARG/US and approved participants in the Wyvern PASS (Pilots & Aircraft Safety Survey) Program. Safety is not a byword at Sterling Aviation; it is our culture.
